

IT Departmental Library -List Of Books (2011)

Code No	Book Title	Author	Publication
1	Network Analysis & Synthesis	Franklin Kuo	Wiley
2	Discrete mathematics fo comp. science & mathematician	Joe Mott, Abraham Kandel	PHI
3	Foundation of Information Technology	D.S.Yadav	New Age International
4	Electronic Communication System	Wayne Tomasi	Pearson publications
5	Computer Architecture & Organization	John Hayes	McGraw Hill
6	Computer Organization & Architecture	William Stallings	PHI
7	Data Structure	A.M.Tannenbaum	PHI
8	Applied Cryptography	Bruice Sehneier	Wiley
9	Principals of Communication System	Taub & Schilling	PHI
10	Digital Communication	Barnard Sklar	Pearson publications
11	Microprocessor and Interfacing	Douglas Hall	Tata McGraw Hill
12	The 8086/8088 Family architecture, programming	Yu-Cheng Liu,Glenn Gibson	PHI
13	Computer Networks	A.S.Tannenbaum	PHI
14	System Programming	John Donovan	Tata McGraw Hill
15	Software Engineering	Rogers Pressman	McGraw Hill
16	Object Oriented System Development	Ali Bahrami	McGraw Hill
17	Fundamental of Database System	Elmassi, Navathe, Gupta	Pearson publications
18	Database Management System	Ramakrishan	McGraw Hill
19	Discrete Event System Simulation	Jerry Banks, John Carson	Pearson publications
20	Mobile Communication	Jochen Schiller	Pearson publications
21	Wireless Communication & Networks	William Stallings	PHI
22	Pattern Classification	Duda, Hart and Stork	Wiley
23	Introduction to Digital Communication	Pursley	Pearson publications
24	Data Warehousing Fundamentals	Paulraj Ponniah	Wiley
25	Data Mining:Introductory & advanced topics	M.H.Dunham	Pearson publications
26	Multimedia System design	Prabhat Andheigh, Kiran	PHI
27	Multimedia Communications	Fred Halsall	Pearson publications
28	Project Management for Business & Technology	Nicholas	Pearson Prentice Hall
29	Neural Networks	Simon Haykin	Pearson Prentice Hall
30	Security in computing	C.P.Pfleeger,S.L.Pfleeger	Pearson Prentice Hall
31	Introduction to Computer Security	Matt Bishop	Pearson publications
32	Database System Concepts	Silberschath Korth	McGraw Hill

UB-01	Active Server Pages	Heith Morneau, Jill Batistick	Course Technology
UB-02	O.S. Projects using Windows-NT	Gray Nutt	Pearson publications
UB-03	Programming in ANSI C	E. Balguruswamy	Tata McGraw Hill
UB-04	UML	Schmuller	Techmedia
UB-05	Introductory methods of numerical analysis	S.S.Sastri	PHI
UB-06	Microprocessor based system design	Ghoshal	Macmillon India
RK-01	Database System Concepts	Korth,Sudarshan	McGraw Hill
RK-02	The Complete reference - Java 2	Herbert Schildt	Tata McGraw Hill
MBS-01	Microprocessors & Interfacing	Douglas Hall	McGraw Hill
DH-01	Computer Graphics	Foley, Van Huges	Pearson publications
DH-02	Database System	Rob, Coronel	Thomson
DH-03	Foundation of Information Technology	D.S.Yadav	New Age International
DH-04	Numerical Methods for Scientific & engineering computation	Jain, Iyengar	New Age International
DH-05	Programming in C & C++	SS.Khandane	S.Chand
DH06	Computer Graphics using OpenGL	Hill, Kelley	PHI
DH-07	Internetworking with TCP/IP	Comer Stevens	PHI
DH-08	Software Engineering	Pressman	McGraw Hill
DH-09	Computer Graphics	Alavala	PHI
DH-10	Computer Graphics	Desai	PHI
DH-13	Foundation of Information Technology	Nagda, Baliya	E-Tech Publication

KC-01 Linux -part 1

KC-02 Linux -part 2

RK-03 Home Networking

Strategic management of technological innovation

Primavera Contractor- Ref. Manual 6.1
