Report on Internship at IIT, Bombay on Python and Blockchain based Payment Gateway

IIT Bombay provided a great internship opportunity for SAKEC students. This internship focused on Python and Blockchain based Payment Gateway. This event was conducted on 18th March 2018. This opportunity was provided for all branches of the college and 37 keen students participated in this programme. The event opened up a new path for the students as they were introduced to the world of technologies like python and blockchain payment gateway and what value blockchain holds in today's world. This programme also emphasised on many new technologies and cleared various doubts of the students regarding blockchain, which made the internship even more interesting and a great success. The internship made a huge impact on the students who had ideas over their minds and just needed a direction to mold them into the world of Blockchain.
